

To Whom it May Concern,

I write this letter as an attestation of an individual that I have the honor of knowing for the past 35 years. Karl Aghassi is a hardworking, honest man who is true to his word and keeps a promise no matter what the situation is.

Karl's work ethics are impeccable, he masters perfection, and his explicit detail to original style and time are spot on. When Karl is engaged in a project, his full attention to the project is always his focus. Karl works well with the subcontractors and has a great deal of knowledge of keeping a synergy between the trades, keeping them on schedule, and all the while, if there are no unforeseen damages prior to the project's commencement, keeping to the client's budget. Karl's clients, as seen by his numerous recommendations, express their satisfaction and genuine praise for the quality of work Karl has completed.

Besides work, Karl has proven to be an amazing father, a true friend, and a leader in his community. If you have any questions about Karl Aghassi's qualifications, please feel free to contact me. I am happy to be transparent with my experiences.

With much appreciation,

*Carole Aghassi*
