Karl,

Sorry, this is way overdue.

To whom it may concern,

During the spring and summer of 2022, Karl Aghassi executed a wide variety of project at our home in Lincoln. Projects included, power washing, installing out-door speakers, fixing an aging swing set, carpentry and painting. All Karl's work was of high quality, and I recommend him whole heartedly.

I recall a conversation with him about fixing the swing-set. Before fixing, it was borderline unsafe and as a father he wanted to get it back into a condition that he would be comfortable having his own children use it. He applied this level of care and consideration in his other projects as well.

Karl was prompt, courteous and respectful around the house. He purchased supplies as need but has always careful not to over purchase and get approval spending. I look forward to working with him again. Happy to discuss live.
